

CIS 399 PROJECT

Embodiment of the Shopping Application

Jenny Lee

Shopping Application Overview

- **Main Layout:** the first thing you see for the application.
- **List Layout:** listing of products and the price.
- **Cart Layout:** when the product is clicked, it increments the price of the what you have clicked, and show overview and the total price number to check out.
- **Menu:** menu to navigate settings and about the application to see the information of the application.

Main Layout Overview
